DR. G. VISWANATHAN

FOUNDER & CHANCELLOR - VIT
GROUP OF INSTITUTIONS

Education is a process that helps one to acquire knowledge, skills, values. It can transform and ignite young minds to think, innovate and create new things which will also lay a strong foundation in building our nation. At VIS we provide world class education that equips students to create an indelible impact on the society.

DR. G.V. SELVAM

Vice President - Vellore Institute
of Technology (VIT) & Chairman -
Vellore International School (VIS)

Education has enormous transformative power for any given crisis. Everyone deserves the best start in life, and that won't be possible without quality education. If we need our future to be sustainable, we have to think collectively. At VIS, academics is a distinguishing characteristic.

It challenges the intellect and nurtures the potential of each student to acquire knowledge, concepts, and skills necessary to become thinking, productive, and responsible citizens. Sports and co-curricular programs have been an integral part of VIS, where the aim is to promote the spirit of exploration, curiosity, character development, team-building, leadership, individualism, and overall empathy for all.

VISION

To be a premier institution that provides holistic, futuristic and culturally rooted education with an international pedagogy.

MISSION

VIS endeavours to:

- ☆ Adopt learner-centred and intellectually challenging academic best practices in an ideal learning environment.
- ☆ Educate students emotionally, physically and socially, to help them lead a balanced life.
- ☆ Provide opportunities for nurturing creativity, innovation and global collaboration.
- ☆ Protect & safeguard the wellbeing, safety and security of the students.
- ☆ Equip students to be life-long learners in an ever- changing world.

Holistic Learning Approach

Vellore International School (VIS) has developed a progressive educational framework rooted in universal pedagogical principles. Our approach blends trans-disciplinary, inter-disciplinary, and multi-disciplinary methodologies, thoughtfully designed for students from Grades 5 to 12.

At VIS, learning is student-centred and experiential. Our educators nurture curiosity and critical thinking through project-based strategies, guided learning, and by valuing every student's voice. Independent research and opportunities to showcase knowledge empower students to build confidence and prepare for admission to prestigious colleges and universities worldwide.

The curriculum goes beyond academics to embrace art, craft, music, dance, and drama as essential pillars of holistic development. By collaborating with renowned artists and experts, VIS offers specialised training in dance, theatre, sculpture, and both Indian and Western music, enabling students to pursue their passions and grow as well-rounded individuals.

Equally, sports and physical education stand on par with classroom learning. We believe playgrounds and sports fields are the true cradles of leadership, resilience, and teamwork. With advanced infrastructure, expert physical education teachers, coaches and trainers, VIS offers world-class opportunities to excel in sports while building character.

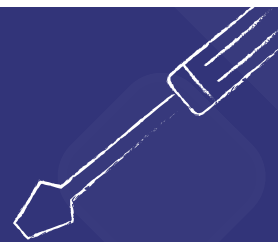

VIS: ABOUT US & WHAT WE OFFER

Nestled within lush surroundings on a sprawling 35-acre campus, Vellore International School (VIS) is committed to the holistic development of both girls and boys. As part of the prestigious Vellore Institute of Technology (VIT) group, ranked among the top 10 engineering institutions in India and home to over 90,000 students from 60+ countries, VIS inherits a legacy of academic excellence and global recognition.

From Grade V to XII, VIS offers the CISCE and Cambridge curricula, preparing students for both national and international pathways. The school is equipped with the latest and advanced facilities spanning academics, technology, boarding, sports, and the visual and performing arts, ensuring a truly enriching learning experience.

At VIS, learning is about more than knowledge. It is about cultivating character, resilience, and creativity. Our international pedagogy, rooted in Indian culture and essence, fosters a balanced environment. This aids students to thrive academically, socially, and personally. Every effort is made to nurture excellence, instill strong values, and inspire students to succeed in life and beyond.

TECHNOLOGY & INNOVATION AT VIS

At VIS, technology isn't just taught. It's experienced.

Our comprehensive Robotics program equips students with future-ready skills, encouraging creativity, innovation, and real-world problem-solving. From turning ideas into prototypes to mastering advanced systems, students gain hands-on expertise that prepares them to lead in tomorrow's tech-driven world.

Our advanced IT Lab takes Informatics Practices to the next level. With innovative tools, high-speed connectivity, and immersive learning experiences, students explore data management, coding, and digital design with confidence. This dynamic environment nurtures critical thinking, collaboration, and digital fluency along with skills essential for thriving in today's interconnected and ever-evolving world.

At VIS, we don't just prepare students for the future. We empower them to create one.

The VISDOM Framework

Shaping Future Leaders

At VIS, education is a journey that goes beyond academics. The VISDOM Programme reflects our philosophy of holistic development, preparing every student to succeed globally through five foundational pillars.

Sense of Purpose

Cultivating self-awareness, values, and meaningful relationships.

Habits of Success

Developing resilience, a growth mindset, and personal ethics.

Academic Knowledge

Mastering rigorous content across all disciplines.

Competencies

Enhancing higher-order thinking and interdisciplinary skills.

Beyond Academics:

Emphasising co-curricular activities and life skills

This framework shapes balanced, well-rounded individuals who graduate as competent, socially conscious, and globally inspired leaders.

House Parenting

A guiding hand to hold

At VIS, we understand that a boarding school is more than just a place to study. It's a second home. Our house parents, experienced members of the residential faculty, live alongside students to provide care, guidance, and mentorship during these formative years.

Beyond ensuring day-to-day well-being, house parents nurture responsibility, discipline, and emotional resilience. They act as trusted confidants, encouraging students to recognise their strengths, overcome challenges, and make thoughtful choices.

By creating a safe, supportive, and structured environment, house parents help students build character, independence, and life skills that last long after their time at VIS.

WELL-BEING AT THE CORE

At VIS, student health and well-being are a top priority, giving parents complete peace of mind.

A 24/7 nursing team provides round-the-clock care, while serious concerns are managed in partnership with Chettinad Health City, a leading multi-specialty hospital.

With preventive care and emergency support always in place, every child is safe, supported, and cared for at all times.

BALANCED MEALS, BETTER LIVING

Meals at VIS are fresh, balanced, and prepared under strict hygiene. Separate kitchens and dining spaces cater to vegetarian, non-vegetarian, and Jain preferences, ensuring authenticity and care.

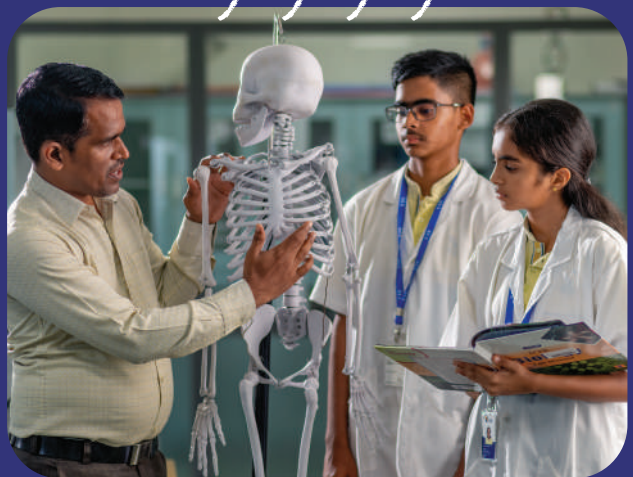

The daily menu features fruits, seasonal vegetables, whole grains, and protein-rich dishes, giving students the nourishment they need for energy, focus, and growth.

Beyond meals, the school promotes healthy eating habits, encouraging children to make mindful food choices that support a balanced lifestyle.
